EXCITING & REWARDING CAREER IN MERCHANT NAVY

A career at sea is very challenging, demanding as well as rewarding. It offers high level of job satisfaction, wide experience and challenging work environment. Experienced Marine Engineers are in great demand in all industries because of their ability to handle very large power plants, their resourcefulness, sense of responsibility and ability to work with their own hand with almost no external assistance. Further you can quickly gain responsibility and a salary to match.

A Marine Engineer is a very valuable and responsible member of a ship's crew. He has to operate and control all engineering system onboard ship and maintain them in good working condition. This gives him tremendous experience and confidence. On top of everything you get chance to travel and explore the world. Last but not the least there is a lifetime opportunity of learning and personal development.

FLOW CHART DEPICTING PROGRESS AFTER OBTAINING B.TECH (MARINE) DEGREE

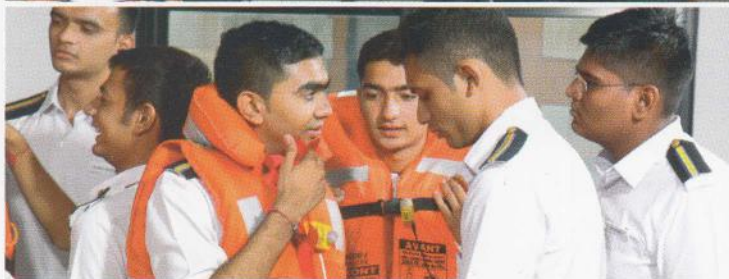

Eligibility : Candidate passed in 10 + 2 with more than 60% Marks in PCM (Combined with practical) and minimum 50% marks in English (10th or 12th). Admission Procedure : Admission is being conducted through ACPC and through Management Quota.

Lateral Entry to 2nd Year Candidates can join 2nd year of the course who have passed 1st year B.E./B. Tech with minimum 60% average marks in Mechanical Marine/ Electrical /EC/ Electrical and Electronics/ Automobile or 3 years Diploma with minimum 55% of aggregate marks in the last year in the last year in above mentioned branches and minimum 50% marks in English Subject (10th or 12th).

Candidates interested in getting admission through Management Quota in 1st Year and Lateral Entry to 2nd Year are requested to fill online application form at www.marine.gnu.ac.in

Merchant Navy is the backbone of international trade, carrying about 90% of the cargo by volume across the globe. Without the merchant navy, much of the import-export business would grind to a halt. Therefore trained personnel are required for various departments of the ship and this widens the scope for employment in this field. Jobs are available with shipping companies in India and other countries.

Job Scope includes but not limited to

- Working on merchant vessels carrying various cargo
- Working on specialized vessels carrying oil, LNG and LPG
- Working in Coastal vessels
- Bright chance to join Indian Navy
- Working in off shore industries like ONGC, ABAN, Tag, Transocean, Essar and other off shore industries
- Working on Ports
- Working in ship Yards
- Working on DP Vessels
- Working in government organization
- Academics and training
